Science
Reinforcement Package
Dear Parents,

Please read through this optional Science revision package. It is important to continue practicing the correct Science vocabulary and building your child’s confidence in speaking and experimenting. You may use this package during the December and January vacations. It is a way for your child to review what they have learned and have fun learning while there is no school.

Please continue naming the five senses and identifying the body part used for each sense. You should ask your child to describe what they have learned about the five senses and practice sorting objects according to each sense.

Please also continue revising color mixing and color experiments. Your child needs to name the primary and secondary colors and discuss what primary colors are mixed to make new colors. Make sure your child speaks in the correct English with the Science vocabulary.

In this package you will find many activities which will revise color mixing and the five senses. Please continue to practice naming the body parts, identifying the five senses, and mixing colors at home.

Please assist your child by reading the instructions and help them when necessary to complete each task.

Thank you and have a great vacation.
Label the face. Trial spell the words.

Oops what’s missing?

Write it here.
My Body Worksheet

Look at the picture of the boy below and use the word bank at the bottom of the page to help you label the different parts of the body.

Hair  Eye  Leg  Hand  Arm  Nose
Mouth  Shoulder  Ear  Knee  Elbow  Foot
Five Senses

Which sense goes best with each picture on the right? Draw a line to connect the best matches.
Your Five Senses!

Check the senses that you use with each object.

1. Cupcake
   - Ear
   - Eye
   - Mouth
   - Hand
   - Nose

2. Teddy Bear
   - Ear
   - Eye
   - Mouth
   - Hand
   - Nose

3. Alarm Clock
   - Ear
   - Eye
   - Mouth
   - Hand
   - Nose

4. Airplane
   - Ear
   - Eye
   - Mouth
   - Hand
   - Nose

5. Fish
   - Ear
   - Eye
   - Mouth
   - Hand
   - Nose
Sense of Smell

Human beings (like you!) have five ways of sensing the world around them: hearing, sight, taste, touch, and smell. Complete the activity below to learn about your sense of smell.

Draw a line to match the smell with the correct object.

- Stinky
- Sweet
- Spicy
- Floral
Draw items for each sense. What can you see? What can you touch? What can you taste? What can you smell? What can you hear?
These are the primary colors.

These are the secondary colors.

Draw and color the objects in your house that are these colors.
Students color the circles to predict what the primary colors will mix into.
